Hi, I need someone to develop a Simple PHP Voting System (4 Pages). The project contains:

==== Frontend ====
1. Voting Page
2. Submit Successfully

==== Backend Admin Panel ====
3. Admin Account Login
4. View Statistics

To view detailed specifications, please click and download the attachment.

1. Voting Page
   Please refer this page https://demo.misqtech.com/totalpoll/poll/basic-poll/
   The original page is:

Here, my requirements are:

(A) Remove dropdown menu

(B) Remove "Results" Button

(C) Add another 5 more options

(D) Multiple choosing, maximum 4

which is like:

2. Submit Successfully

3. Admin Account Login

admin   password

Login

4. View Statistics

TotalPoll Demonstrations

What's your favorite color?

Blue
4,097 Votes (47.96%)

Green
2,188 Votes (25.61%)

Red
1,372 Votes (16.06%)

Orange
603 Votes (7.06%)

Purple
285 Votes (3.34%)

DO NOT order options as Descending

Blue
